Intervention Specialist | Instructional Designer

Results-oriented Intervention Specialist with expertise in designing technology-integrated learning experiences within virtual environments. Specializes in digital curriculum development and data-informed instructional design to enhance cognitive engagement and accessibility. Experienced in building intervention frameworks aligned to learner variability. Seeking to advance knowledge in Learning Design & Technology to develop scalable, innovative educational solutions.

Skills

✓ Learning Experience Design	✓ Universal Design for Learning	✓ Data-Informed Instructional
✓ Digital Curriculum Development	✓ Assessment & Feedback Systems	Decision Making
✓ Gamification Design	✓ Formative Assessment Design	✓ Progress Monitoring & Growth Analysis

Technology and Digital Platforms

Learning Management Systems: Canvas, Brightspace

AI-Assisted Design Tools: ChatGPT, Magic AI, NotebookLM

Assessment & Intervention Platforms: IXL, Classkick, Literably, Raz-Kids

Student Information & Data Systems: PowerSchool, TotalView

Data & Productivity Tools: Google Workspace, Microsoft Excel

Work/Field Experience

Intervention Specialist Grade 7 | Ohio Virtual Academy, Maumee, Ohio

08/2022-Present

- Develop and monitor Individualized Education Programs aligned with Ohio Learning Standards, ensuring compliance and promoting measurable student growth.
- Deliver specially designed instruction in co-taught and resource room settings, implementing structured intervention models for targeted support.
- Provide interventions in written expression, foundational literacy skills, reading comprehension, math reasoning, and executive functioning.
- Utilize diagnostic assessments and progress monitoring tools to analyze student growth and adjust instruction accordingly.
- Design differentiated, multimodal lessons using digital platforms including Canvas, IXL, Zoom, and Classkick to enhance engagement.
- Collaborate with general education teachers and multidisciplinary teams to facilitate curriculum access and student success.
- Foster student independence and self-advocacy within a virtual learning environment.
- Design and implement interactive, game-based digital learning experiences to enhance engagement and support understanding of complex content in a virtual middle school setting.

Student Teaching: Grade 7 | Pickerington Local School District, Ridgeview STEM Junior High School,

Pickerington, Ohio

01/2022-05/2022
